

Swimming Pool Rules & Regulations

Guests will be expected to behave themselves in accordance with the rules of the Facilities. Anyone disobeying rules, ignoring lifeguard instructions, or endangering the safety of others will be asked to leave the Facilities. If an unwanted guest refuses to leave the Facilities, the police will be notified. Repeated violations will result in the revocation of swimming pool privileges.

Guests will be expected to obey the following rules:

1. All guests must sign in when they enter the Facilities, allowing TAE to keep track of the number of patrons in the Facilities in the event of an emergency.
2. Running is not allowed inside the Facilities. The surrounding area is generally wet, causing this to be the number one cause of injury at swimming pools.
3. Dunking, pushing, shoving, and any other form of horseplay is not allowed. These are potentially harmful activities to both those engaged in them, as well as those nearby.
4. Foul or abusive language is not tolerated. It will be viewed as a precursor to physical violence. Physical violence will not be tolerated inside the Facilities.
5. All guests are subject to a swim test. Guests who are unable to swim one length of the pool will not be granted access to the deeper ends. See Exhibit E below for additional details.
6. Street clothes and cut off shorts are potentially damaging to swimming pool filtration systems. They will not be allowed in the Pools.
7. Potentially dangerous entries into the Pools, such back flips, gainers and somersaults, are prohibited. Entries of this nature from both the sides of the Pool and the diving board increase risk of injury.
8. Children fourteen (14) years old and under must be accompanied by a responsible adult over eighteen (18) years of age.
9. Alcohol is not allowed inside the Facilities. Any person suspected of using alcohol shortly before or during a visit to the Facilities will be asked to leave.
10. Smoking is not allowed inside the Facilities. Non-extinguished cigarette butts may cause bodily injury. Cigarette butts are potentially damaging to swimming pool filtration systems.
11. Glass is not allowed inside the Facilities. Broken glass is a safety hazard.
12. Children in diapers must wear rubber swim pants or any approved swim diaper. This prevents the spread of E-coli bacteria from fecal deposits. This also applies to all bodies of water.
13. One (1) long whistle blast signifies the immediate exiting of the pool. This activates the Emergency Action Plan indicating that a guard has entered the water.
14. Lifeguards are the definitive last word in regards to enforcing the rules of the Facilities. The goal is to provide a safe, simple and secure plan worthy of an aquatic atmosphere. Those not adhering to lifeguard recommendations put themselves and others in compromising situations and will be asked to leave.

EXHIBIT E

Area-Specific Rules and Regulations

Should your facility have any or all of the below amenities, the following rules and regulations shall apply unless otherwise agreed upon in writing.

DIVING AREAS

1. Only one (1) diver on diving board at a time.
2. No running on the diving board.
3. Guests waiting in line are to wait until previous diver has exited the water.
4. Weak swimmers and guests who have not passed a swim test are not allowed on the diving board.
5. Horseplay is not permitted on or near the diving boards.
6. Guests with back problems should not use a diving board.
7. Front flips are permitted. Back flips, gainers, somersaults, etc. are not permitted. They cause the guest to exit the board in an unusual fashion, possibly causing bodily injury upon entering the water.
8. No swimming in the diving area while the diving boards are open. Lifeguard(s) on duty determine when diving boards are open/closed.
9. Guests must exit the diving area immediately after completing a dive. Not doing so could cause collision/physical injury between guests in the water and the approaching diver.
10. Guests wearing personal flotation devices are not permitted to use the diving boards.
11. Goggles, flippers and snorkels are not permitted on the diving boards.

CHILDREN'S POOL

Children of primary school age or older are not allowed to use the children's pool. These pools are designed for infant and young children who can't stand with their head fully above water in the shallow end of the main pool. Parents/guardians are welcome to participate in the water with their children but at a minimum must be within arm's reach. These smaller pools are not designed to accommodate heavy bather loads; thus, participation will be monitored. Children in diapers must wear an approved swim diaper. This pool is not a guarded body of water; therefore, the lifeguards will not be scanning it constantly.
